

INTERNATIONAL CONFERENCE SUSTAINABLE PRODUCTION AND USE OF CEMENT AND CONCRETE

As part of the II Scientific International Convention of Science, Technology and Society 2019 the First International Conference of Sustainable Production and Use of Cement and Concrete will take place from June 23rd – 30th, 2019 at Hotel Iberostar Ensenacho, Cayo Santa Maria, Villa Clara, Cuba. The conference goal is to present the most recent results of research and technological developments related with production and use of cement and concrete.

Authors will be asked to nominate their preference for either oral or poster presentation. Due to program constraints, not all presenters will be allocated their preference, but both presentation modes are equally valued and have distinct advantages.
